

# Public Notice

**Applicant:**  
Hoty Enterprises

**Date:**  
**Published:** Nov. 27, 2000  
**Expires:** Dec. 27, 2000

**U.S. Army Corps  
of Engineers**

**In Reply Refer To:**

**Buffalo District CELRB-CO-R RE: 2000-02059(1) Section: OH 10**

**Application for Permit under Authority of  
Section 10 of the Rivers and Harbors Act of 1899.**

Hoty Enterprises, on behalf of Venetian Marina, 8 Harbour Parkway, Sandusky, Ohio 44870, has requested a Department of the Army Permit to dredge an existing marina and discharge the dredged material into the Pipe Creek Wildlife Area adjacent to Lake Erie. The project is located at 2035 First Street, in the City of Sandusky, Erie County, Ohio.

Department of the Army authorization is required to dredge approximately 1,300 cubic yards of sediment from Lake Erie and to dispose of the material in Cell "A" of the Pipe Creek Wildlife Area adjacent to Lake Erie.

The project consists of the following:

- a. Approximately 1,300 cubic yards of sediment will be mechanically dredged from the Venetian Marina on Lake Erie. The sediment will be removed from along the east side of the marina between dock sections "A" and "B." The water depth along the east side of the marina is only 3.5 feet while the desired water depth throughout the marina is five feet.
- b. The applicant proposes to dispose of the dredged material within Cell "A" of the Pipe Creek Wildlife Area which is managed by the Ohio Department of Natural Resources. The Pipe Creek Wildlife Area was created in accordance with Department of the Army permit No. 82-475-3 as mitigation for the Harbour Development.

The applicant's stated purpose for this project is to maintain the desired water depth within Venetian Marina.

Location and details of the above described work are shown on the attached maps and drawings.

Questions pertaining to the work described in this notice should be directed to Martin P. Wargo, who can be contacted by calling (716) 879-4116, or by e-mail at: martin.p.wargo@usace.army.mil

The applicant has certified that the proposed activity complies with Ohio's approved Coastal Zone Management Program and will be conducted in a manner consistent with that program. Any comments on the consistency of the proposed activity with Ohio's Coastal Zone Management Program should be forwarded to:

Mr. Don Povolny or Ms. Kim Baker

Telephone (614) 265-6411  
FAX (614) 267-4764  
e-mail: kim.baker@dnr.state.oh.us

There are no registered historic properties or properties listed as being eligible for inclusion in the National Register of Historic Places that will be affected by this project.

In addition, available evidence indicates that the work proposed may affect five species proposed or designated by the U.S. Department of the Interior as threatened or endangered, and it may affect the critical habitat of any such species. These five species include the Indiana bat, bald eagle, Lake Erie water snake, piping plover, and the lakeside daisy. The common tern, a state endangered species, is known to nest east of the Cedar Point Causeway and north of US Rt. 6 in Pipe Creek Wildlife Area.

This notice is promulgated in accordance with Title 33, Code of Federal Regulations, parts 320-330. Any interested party desiring to comment on the work described herein may do so by submitting their comments, in writing, so that they are received no later than 4:30 pm on the expiration date of this notice.

Comments should be sent to the U. S. Army Corps of Engineers, 1776 Niagara Street, Buffalo, New York 14207-3199, and should be marked to the attention of Martin P. Wargo, or by e-mail at: martin.p.wargo@usace.army.mil. A lack of response will be interpreted as meaning that there is no objection to the work as proposed.

Comments submitted in response to this notice will be fully considered during the public interest review for this permit application. All written comments will be made a part of the administrative record. Due to resource limitations, this office will normally not acknowledge the receipt of comments or respond to individual letters of comment.

Any individual may request a public hearing by submitting their written request, stating the specific reasons for holding a hearing, in the same manner and time period as other comments.

Public hearings for the purposes of the Corps permit program will be held when the District Commander determines he can obtain additional information, not available in written comments, that will aid him in the decision making process for this application. A Corps hearing is not a source of information for the general public, nor a forum for the resolution of issues or conflicting points of view (witnesses are not sworn and cross examination is prohibited). Hearings will not be held to obtain information on issues unrelated to the work requiring a permit, such as property ownership, neighbor disputes, or the behavior or actions of the public or applicant on upland property not regulated by the Department of the Army. Information obtained from a public hearing is given no greater weight than that obtained from written comments. Therefore, you should not fail to make timely written comments because a hearing might be held.

The decision to approve or deny this permit request will be based on an evaluation of the probable impact, including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefits which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered including the cumulative effects thereof; among these are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership, and in general, the needs and welfare of the people.

The Corps of Engineers is soliciting comments from the public; Federal, state and local agencies and officials; Indian Tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps of Engineers to determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

  
 Paul G. Leuchner  
Chief, Regulatory Branch
